

ONTARIO ELCC • SHARED VISION 2046

Initiated by B2C2 • Offered for sector discussion and endorsement

THE FUTURE WE WANT TO BUILD

Every child and family can access high-quality, inclusive and affordable early learning and child care when and where needed. ELCC is planned and funded as an essential public service and social infrastructure.

THREE CONNECTED GOALS

EXPAND	SUPPORT	SUSTAIN
Universal, equitable and intentional access	Strong workforce, inclusive programs and resilient providers	Reliable funding, sound planning and quality over time

WHAT THE SYSTEM LOOKS LIKE

Equitable access	Services reach underserved communities and meet diverse needs
Quality and workforce	Children thrive; educators have strong careers and workplaces
Public social infrastructure	Capital and operating funding work together
Strong public and non-profit providers	Governance, shared services and capacity support quality
Continuity for children	Child care, kindergarten and school-age care coordinate
Learning system	Evidence guides policy, expansion and improvement

HOW WE GET THERE

Collaboration is the approach. Coordinated planning aligns action. Integration and continuity are outcomes for children and families.

THE ROLE OF B2C2

B2C2 champions this shared vision and contributes practical tools, partnerships, implementation knowledge and policy evidence. It does not claim ownership of the vision or responsibility for delivering the entire system.
